St. Paul's United Church Congregational Meeting

REV. H. J. BEVAN RESIGNS
PASTORATE.

A meeting of the congregation was held on Sunday evening in the United Church, when the resignation of the pastor, placed in the hands of the board recently, was accepted.

Mr. and Mrs. Bevan have been here since the summer of 1926, and will have completed four years in Coleman by midsummer. The resignation will be placed before the district meeting to be held in Lethbridge in March, and a successor appointed.

During his pastorate here, the church has progressed and many in the congregation will regret his decision to resign from the charge.

Change in Proprietorship of Coleman Hotel

Will Go Into Business in Lethbridge After Five Years Here.

After five years' residence as proprietor of the Coleman hotel, Mr. B. Bertie left on Monday night for Lethbridge, where he contemplates entering the garage business. It was a surprise to most people, and Mrs. Bertie accompanied him.

He has greatly improved the place since he came, when it was in a run-down condition and business was at a low ebb. It has been put on a paying basis during his time here, and quite recently the interior was entirely renovated.

Mr. Bertie was well-liked among local business men, who regret his departure, and wish for his success in his new venture in Lethbridge.

Mr. Girard, the new proprietor, arrived this week and has taken over the hotel. It is expected that Mrs. Girard will arrive in about two weeks, and she will be accompanied by Miss Virginia Delight. They are at present at Fort Frances, Ont.

In leaving Mr. Bertie expressed his appreciation of the support accorded him during his residence in Coleman, and hoped that the same measure of support and friendship would be accorded to his successor.

MAYOR WEBB—HOT AIR!

Mayor Webb of Winnipeg and others of that city who attended the supposed conference of western mayors on unemployment apparently do not care a jot about unemployment in Alberta, judging from their attitude on dumping of American coal in Manitoba. Mayor Webb's talk at the convention appears to be so much puff. The rebuff given to Mayor Barrowman's (Lethbridge) resolution in an effort to bring public attention to the claims of Alberta coal can be described in no more forceful term than "rotten."

NEW MINES ACT

Premier Brownlee states that the new Mines Act will be taken up in the legislature during the present session. Efforts had been made to have it laid over for a year, as interested parties claimed there had not been sufficient time permitted to thoroughly consider its various phases. It will therefore be considered late in the present session.

POWER INTERRUPTION

On Thursday night last the power was cut off for a short time owing to a heavy wind at the Frank side bringing down the power line. For a few minutes before the power was cut off entirely the lights were going off intermittently, until finally the line was cut out at the power plant at Sentinel, and an alternate line put into use, when service as usual was resumed.

A new serial story, "Silver Ribbons," written by Christine Whiting Parmenter, commences in this issue.

Mighty Bridge Spans Saskatchewan

Faith in Canada's northern areas of resource becomes reality in the Canadian Pacific Railway bridge now nearing completion at Nipawin, Saskatchewan. Designed to take the heaviest locomotives likely to be built, this magnificent structure, a little more than 1900 feet long, spans the Saskatchewan River at a point leading from the more definitely sectioned into mining and timber districts recognized magnitude. It will afford ready access to unexploited farm lands and direct transportation possibilities for those who will explore and develop mineral areas rich in promise. This new

gateway to the North required more than 8½ million pounds of structural steel in its construction. Vehicular traffic will be carried in the space between the ironwork and Canadian Pacific trains will travel on the top. (1) shows the pile-driver at work in 1924-1925. (2) In picturesque setting, the main piers of the structure are viewed from Ferry Hill in August 1929 before the steel arrived. (3) The west towers almost finished, December 18, 1929. (4) Looking across the completed bridge on the vehicular roadway which meets the Government highway at either end.

MONTH HYGIENE CAMPAIGN

The Canadian Dental Hygiene Council is putting on an extended campaign in Mouth Hygiene in Alberta, stated that he was leaving there on Feb. 3rd and would sail on Feb. 8th from Liverpool to Halifax on the liner "Albion." This should bring him to Coleman about Feb. 20th. He left here last summer to visit his old home after quite a long absence. Coleman should have the hand out to greet Steve.

S. LEOSKY RETURNING

Steve Leosky, writing from his home in Czechoslovakia on Jan. 18, stated that he was leaving there on Feb. 3rd and would sail on Feb. 8th from Liverpool to Halifax on the liner "Albion." This should bring him to Coleman about Feb. 20th. He left here last summer to visit his old home after quite a long absence. Coleman should have the hand out to greet Steve.

J. Moores Is Declared Mayor by Acclamation

Vacancies on Council Filled With
out Contest for Civic Honors

Five Candidates for Two Vacancies on School Board

Following are the nominations received by Returning Officer James Ford on Monday:

For Mayor, James Moores.
For Councillors: G. Pattinson, Lewis Jones and R. L. Morris. All declared elected by acclamation.

For School Trustees: G. Dickson, Wm. Fraser, W. Lees, Sam Moores, H. Snowden. Two to be elected. H. Snowden has been acting chairman of the board since Tom Johnson left last year, and is seeking re-election.

The election takes place on Monday at the town hall.

D. A. Taylor, field secretary of the Loyal Orange Association, of Calgary, visited the local lodge last evening, and a social evening was arranged in honor of his visit.

WHERE WERE THEY?

One would naturally expect that a prospective candidate for municipal office would be present at the annual ratepayers meeting, except some unusual circumstance or work kept him away. Of eight candidates nominated on Monday, only three were present at the ratepayers meeting on Friday night. Besides the members of the council and school board, six ratepayers were present.

A telegram from J. M. Christopher, M.L.A., despatched on Monday from Edmonton, stated that the road would be opened to the lake.

Extra Theatre News

Vol. 1, No. 1 Thursday, February 6, 1930

Palace Announces Startling Attractions Including Notorious Harold Lloyd

This week-end Manager Dow announces Alice White in "The Girl From Woolworths," a First National picture, with Jack Delaney leading man. An exceedingly funny 2-reel comedy will also be shown.

On Mon., Tues. and Wed. Noah Beery will be seen in his first all-talking picture, "The Tale of Lost Ships." Noah is one of the stars in filmdom who always gives the audience real entertainment. Be sure and see him in this picture.

Nancy Carroll, a favorite of Coleman audiences, and Chas. Buddy Rogers will appear next week-end in "The Illusion." This is the first talkie "Buddy" will appear in in Coleman.

EXTRA SPECIAL COMING

On February 24th Harold Lloyd comes for three days in an all-talkie which has set everyone talking and laughing. Maybe you already know of it. Be sure and keep the dates in mind. More of it next week!

The Monday afternoon matinees for the children have proved very popular, and at the very low admission price enables every child in Coleman to see the same program as the adults.

Watch our weekly news for announcements of interest. One show only on Saturday night commencing at 8 o'clock.

425 millions of people see the movies weekly. They are educational and entertaining. We show the best.

PRESENTATION TO
MAYOR BURNS

On Wednesday night of last week the town councillors met at the home of Councillor J. Moores in West Coleman and made a presentation of a case of pipes to Mayor Burns as their personal tribute of appreciation of his services as mayor for the past number of years.

With his removal to the power plant at Sentinel, where he is employed as engineer, Mr. Burns finds it impossible to continue to serve the town in an official capacity, consequently he decided some time ago that with the expiration of his term of office he would not again accept nomination.

FIRST YEAR UNIVERSITY WORK IN COLEMAN HIGH SCHOOL

The subject of a consolidated high school has again been broached by Lethbridge correspondent to the Lethbridge Herald. It will be of general interest to the public to know that Coleman high school has been for the past year or more giving first year university work, so that students have facilities equally as good or even better than other schools in the Pass.

Grade XII students moreover have given a good record of their studies, and have shown a remarkably high average in exam. results.

Y. P. S. DANCE

The Young People's Society of Coleman held a very successful dance in the Polish hall on Monday evening. A large number of young people attended, besides those from Pincher Creek who came up with the hockey team.

Prizes were awarded to Mrs. Michalsky and Mr. Polmerchuk for holding the lucky door numbers, and to Miss R. Milo and O. Celli for the spot dance.

Altarmatt's orchestra gave a snappy program of the latest hits, keeping everybody hopping right along.

Mrs. Cartwright has as her guests her two daughters from Calgary, who are staying at the Rectory.

Rev. A. D. Currie will attend a conference of clergy in Calgary next week, which has been called by the Bishop to take the place of the regular Synod meeting.

DIOCESAN CONFERENCE OF CLERGY

A conference of the Clergy of the Diocese will take place in Calgary from Feb. 11th to 14th. A reception at Bishop's court will take place on Tuesday evening.

On the following three days three papers will be given, 1. "The Resources Available in Our Profession"; 2. "The Methods Necessary in Our Profession"; 3. "The Problems Facing Our Profession."

At the noonday lunches the conference will be addressed by the following speakers: Wednesday, Col. D. G. L. Cunningham, D.S.O.; Thursday, Dr. Robert O'Callaghan; Friday, Dr. G. W. Kerby, Principal of Mount Royal College.

Wayne Local of the Mine Workers Union of Canada have sent a resolution to Premier Brownlee protesting against the new mines act, and a resolution to the Dominion government against permitting the dumping of American coal in Manitoba.

Pincher and Coleman Battled Here Monday

Seniors Receive Boost in Scoring
Power From Junior Ranks

BILLY FRASER OF JUNIOR TEAM
SCORES FIVE GOALS

The feature of Monday's game between Coleman and Pincher was the playing of Fraser of the Juniors, he notching five of the nine goals scored by Coleman. Jim Fraser and Vejreva took the rest.

H. Levasseur and Reddin, defence men for Pincher, scored a goal each for Pincher. The boys were a little tired after their 35-mile drive over rough roads, but nevertheless put up a good exhibition in spite of the one-sided score.

The line-up:
Pincher Creek: Ambrose goal; McKerracher, Reddin defence; Gladstone, Levasseur, McLean forwards; Hill, Godfrey, Hunter, M. Gladstone subs. Coleman: Colgrove goal; F. Vejreva, J. Fraser defence; Kuhn, L. L. Jenkins, B. Fraser subs. Referee, George Graham, Coleman

SCRATCH TEAM DEFEATED JUNIORS

On Tuesday last week the Junior hockey team played against a scrub team in which they were defeated by a score of 3-2, the prize being \$5.00 paid by the defaulting team. Some of the ex-junior hockey players formed the scrub team, and they had a strong backing for their defence in George Graham, who was like a stone wall in goal. Tony DeCocco played his usual position for the Juniors as goal-keeper, and saved many a dangerous shot. The game was keenly contested, and the score was tied about five minutes before the close of the game. The winning goal was scored for the scrub team by Kapka.

The Juniors state they will play a return game in the near future with the determination to get their "own back."

Goals were scored by the following: Pattinson and Clarke for the Juniors, and Kapka, Haysom and Kapka for the scrub team. The line-up:

Scratch team: G. Graham, goal; J. Kapka, Everett, Price, defence; S. Janscak, L. Richards, L. Haysom forwards; H. Dunlop, sub.

Juniors: T. DeCocco, goal; R. Johnson, F. McLeod, defence; R. Pattinson, W. Fraser, J. Oliva, forwards; L. Griffiths, H. Clifford, C. Clark, subs.

M. Korman, referee.

The Junior hockey team appear resplendent in their new sweaters, purchased with the funds they have raised from gate fees and their dance. They wish to thank all who have supported them in their efforts, and state that they appreciate such evidences of goodwill. The sweaters were purchased through Pattinson's hardware, and they were given a very generous deal by the proprietor.

YOUNG PEOPLE ENJOY DANCE
The junior hockey team's dance last Friday evening was favored with a crowded house, and the young people held the floor, dancing the steps to the latest dance hits by Altarmatt's orchestra. The few older people present found it hard to keep up the pace set by the younger folks, and were mostly content to sit on the side and watch their amusing gyrations. The first part of the evening was given over to a whist drive, the prizes being won by Mrs. W. Gate, Mrs. Carol A. Fausville and Fraser McLeod. Refreshments were served at the close of the whist games, and the remainder of the evening given over to the giddy whirl.

If you have an interesting item of news, let The Journal know of it. The editor cannot be everywhere to gather up the interesting items, yet people at times ask why isn't this or that in the paper. A little co-operation and an occasional call at the office if you have anything of interest would help.

A New Hope For The World

The five-power naval conference is in session in London, England, as this article is written. It is a momentous gathering, fraught with great possibilities for the good of all mankind. Assembled around the conference table are leading statesmen of Great Britain, United States, France, Italy and Japan, the five greatest naval powers in the world. The British delegation also includes representatives of the self-governing Dominions and India.

The problem confronting these eminent statesmen is to find some basis of agreement whereby a stop can be put to further competitive building of ships for warlike purposes, and, if possible, to provide for a substantial reduction in the number of existing ships by scrapping some now in commission and providing that there shall not be replacement of others when they become old and obsolete.

So worded, the average man would be inclined to say that it should not be a very difficult matter to reach an agreement, but the problem is by no means so simple as it seems to the layman. One country places greater reliance on huge battleships than does another; others desire many fast cruisers of moderate tonnage, others feel their necessities call for larger cruisers, some want a great number of submarine, while others are prepared to outlaw them altogether. Great Britain is ready to abolish both submarines and the huge battleships, and rely on cruisers of moderate tonnage. The United States is agreeable to the outlawing of the submarine, but still feels the necessity of the big ship. France is opposed to abolishing submarines. And so it goes.

And there is something to be said for each contention. Great Britain has colonies and coaling stations, oil and supply depots all over the world. The moderately sized cruiser will, therefore, fit in with her requirements for defence of her great shipping and commerce. But other countries, lacking such re-fueling and supply depots, feel the need of larger ships, carrying greater quantities of fuel and supplies, so as not to be forced back to home ports too frequently. France is convinced that the submarine is her great arm of naval defence inasmuch as she cannot hope to compete with Britain and the United States in the building and maintenance of large battleships and cruisers.

However, the conference is a hopeful sign of the desire of the nations to lessen the burden of armaments and consequently to decrease the possibility of war. One thing is certain, and that is that the people in all countries are extremely anxious that their leaders should succeed in reaching some unanimous conclusions. They are the ones who have to bear the burden of taxation imposed for these huge armaments; it is their sons who are withdrawn from productive employment to man the navies, and undergo intensive training for possible future slaughter.

The most hopeful feature of the present conference is that it has been preceded by conferences between the nations at which efforts have been made to find common ground, to iron out differences, to allay old suspicions. The conference may not achieve all that might be hoped for and desired, but if it marks a further advance on the work of the Washington Conference of some years ago, much will be gained, and the way be paved for further reduction and understandings in another few years. Thus step by step will progress be made.

An indication of this better understanding has already been evidenced by the visit of Hon. Ramsay MacDonald to President Hoover, and the co-operation now existing between the two great English-speaking nations in the cause of world peace. Further evidence is supplied by the general tenor of editorial comment and the press of the two countries, by speeches of their public men, and articles in magazines and the more influential publications.

An example of this willingness to consider and appreciate the other fellow's viewpoint and position, instead of ignoring or misrepresenting them, is found in a recent issue of the Philadelphia Evening Bulletin. It states some home truths for its United States readers. To quote in part:

"The salt water, I believe, is freest of all, in peace, without that jurisdiction—the British—where it was formerly (in centuries past) least free. Britain accords the peaceful world, so far as her writs run, complete maritime freedom and equality, even within her own ports and coastal waters. Her port charges are the same to others as to British. Foreign ships may take part in her coastwise trade."

"Her broad theory is that maritime commerce, under whatever flag it may move, holds out some hope of profit to the greatest commonwealth seafaring peoples. No other nation is of like mind—not the Italian, not the French, not the Japanese, not the American. Our coastwise trade, for example, is reserved rigidly for vessels of American registry, and none other may ply between our home ports and those of our overseas territories."

Recognition of this broad liberty accorded to the shipping of all nations by Britain, as contrasted with the narrower policy adhered to by all other great naval powers, thus openly presented to the readers of a great United States paper, is an indication of that better and more cordial feeling towards Britain now so evident in the neighboring republic. It is because such better feelings do exist, and are growing stronger, that hopes for the success of the present naval conference are so high.

Canada's Cabinet Ministers

Oldest is Hon. W. R. Motherwell, and Youngest Hon. C. A. Dunning.
Hon. W. R. Motherwell, Minister of Agriculture, who has just celebrated his seventieth birthday, is the oldest member of the Dominion Cabinet. The youngest is Hon. C. A. Dunning, who at 45 is Minister of Finance. The others are: Postmaster—general Veniot, 66; Minister of Interior, Stewart, 61; Minister of Health, King, 57; Minister of Public Works, Elliott, 57; Prime Minister King, 55; Minister of Labour, Heenan, 54; Minister of Customs, Eider, 54; Minister of Justice, Lapointe, 53; Minister of Railways, Crerar, 53; Minister of Marine, Cardin, 50; Minister of Trade and Commerce, Malcom, 49; Minister of National Defence, Ralston, 48; Secretary of State, Rinfret, 46; Solicitor-General, Canon, 42; Minister of Immigration, Forke, who has just resigned, was 69. Including the last named, this makes an average of about 55 for the seventeen, a figure which for that class of work affords the vigorous age classification.

CAN YOU WITHSTAND RIGORS OF WINTER?

Or Are You Subject To The Many Ills Of This Trying Season?

The rigors of winter sap the vitality of even the strongest. Lack of exercise, overworked nerves and a restricted diet will gradually impoverish the blood and impair the health. That is why you are susceptible to colds—why you find such difficulty in throwing them off.

To be proof against cold, flu or other winter ailments the body must be nourished by rich, red, health-giving blood. A tonic medicine must be taken to build up this rich, red blood. Such a tonic is Dr. Williams' Pink Pills—thousands recommend them as a reliable blood-builder and winter tonic.

Concerning them Mrs. Jackson Jenkins, Owen Sound, Ontario, writes: "After a severe attack of flu I found myself very much run-down. I was advised to try Dr. Williams' Pink Pills and they fully restored my health and strength. I can heartily recommend these Pills to anyone whose blood is in an impoverished condition."

Start taking Dr. Williams' Pink Pills today and see how soon you will feel the benefit. They are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discover Cancer Serum

Two San Francisco Surgeons May Make Important Contribution To Medical Science

Discovery by two San Francisco surgeons of what they call a "cancer killing serum" disclosed when it became known that medical agencies of the University of California have decided to co-operate in further experiments with the substance.

The originators, Dr. Walter Bernard Coffey, chief surgeon of the Southern Pacific Hospital, and Dr. John D. Humber, his colleague, specified that the serum was not to be regarded as a cancer cure, but asserted that it was able to kill cancerous tissues.

The serum is derived from the outgrowth of the adrenal glands of sheep.

Persian Balm imparts a rare charm and distinction to the woman who uses it. Fragrant as a flower, deliciously cool to the skin, it always results in complexioned delightfully young and lovely. Indispensable to every dainty woman. As a powder base for oily-textured skins or as a beautifying lotion it is unrivalled. Tones and stimulates the skin. Recommended also to soothe and make the hands flawlessly white.

University Of Alberta

Debaters Win A Three To One Verdict Over Manitoba In Inter-University Contest

Piling up a conclusive argument which completely controverted that of their opponents, University of Alberta debaters recently defeated the University of Manitoba by a three-to-one verdict of the judges for the McGowan Cup.

Alberta speakers upheld the affirmative of the subject, "Resolved that total disarmament is essential to world peace."

The debaters for Alberta were David Sigler and F. E. L. Priestley, and for Manitoba, Ronald M. Macdonnell and R. Gerald Riddell.

Race For Supremacy

In Flying Atlantic

English, American, and Canadian Concerns Are Flaming Routes
A race for supremacy along two air lines over the Atlantic Ocean, one via the Arctic and sub-Arctic, the other over a seadrome dotted ocean route, may be started within the next year or two, aviation officials in Canada believe.

Authorities at Ottawa are possibly in the northern route which would make Canada eventually the skyway between civilizations of the eastern and western world.

Three different concerns, one in Canada, one in England, and one in the United States, are at present investigating the possibilities of regular transatlantic air services which would carry passengers, mail and express.

The American concern is now engaged in the construction of a full sized seadrome, a giant movable raft on stilts, which will be tested off the southeast coast of the United States, in 1930. In Canada, Warren Skoll, an industrial engineer now making his headquarters in Winnipeg, is conducting a route from Winnipeg to Baker Lake, across Baffin Island to Greenland.

In England the Royal Geographic Society has announced its intention to organize an expedition to study conditions along a proposed route which would carry aircraft across to northern Canada, down to Edmonton and then through to Vancouver.

In all three plans expense, it is estimated, will prove the main consideration. The cost of placing seadromes across the Atlantic would be enormous, while that of equipping and maintaining adequate airports in the far reaches of northern Canada, or the Greenland ice cap and through the sub-Arctic, would be equally or nearly as great.

Recognized as a lead ing specific for the destruction of worms, Mother Graves' Worm Expeller has proved a boon to suffering children everywhere. It seldom fails.

Makes Unusual Find

Trapper In British Columbia Discovers Eight Foot Miniature Dirigible

John Sandberg, a trapper in Gold Creek district, about 50 miles southwest of Fernie, B.C., is reported to have made an unusual find while patrolling his trap line. The discovery is claimed to be an eight foot miniature dirigible or airship in almost every detail like a large air liner. Inside the tiny cabin was a sealed glass receptacle with a note giving a name and a Toronto address which was the point of embarkation of the airship, and requesting that the party finding the tiny craft should report fully, describing the territory where it was found.

A reward of either two dollars and 50 cents, or \$250, is reported to be payable to the discoverer and Sandberg is not divulging the Toronto address until he has communicated with it.

The direct air line distance between Toronto and the location where the balloon was found is at least 1,800 miles.

Only the uninformed endow the agony of corns. The knowing ones apply Holliway's Corn Remover and get relief.

Egypt, today among the world's most prosperous nations, derives her water mainly from the Nile through irrigation and drainage work.

A British printer has discovered a method of producing luminous ink in various colours, for reading in the dark.

Grandmother Knew—She Used Minard's.

Demolish Churches

Religious Edifices In Russia Are Torn Down To Make Way For Secular Buildings

Simanov monastery, which in former days was the most important and richest in Russia, was blown up with dynamite to make room for a gigantic new Soviet workers' club and "cultural centre."

Five thousand red workers carried away the debris; each pledging himself to remove one stone and throw it into Moscow River. This act on followed the recent conversion by Communists of the famous St. Isaac's Cathedral, in Leningrad, into a huge anti-religious museum. The hundred-ton bells of the cathedral were so unwieldy that the authorities had to destroy them piecemeal in the bell-rings.

More than a score of other churches in Leningrad and Moscow are now in process of demolition and are being replaced by commercial buildings, schools, and workers' clubs. In one case, a provincial church was turned into a circus, and in 7,500, the proceeds from melted church bells were used to establish a menagerie.

Grant For Research

University Graduates To Investigate Weed Flavors In Milk

To provide for the continuance of research investigation into the problem of weed flavors in milk, the National Research Council of Canada has granted the University of British Columbia the sum of \$3,000. Miss Vivian Hudson and Duncan McKenzie, graduates of the University, have been appointed assistants under the Council's grant to continue the milk studies which were started some few months ago.

For Sprains and Bruises—There is nothing better for sprains and bruises than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince anyone who doubts its power.

Good Speakers Nervous

Would Get Out Of Addressing Crowds If It Were Possible

Right Hon. Jan Christian Smuts, war hero and leading statesman, during a memorable address in Toronto, said: "I have never learned in a long political life to shake off a nervous trepidation when I have to face my fellow-men in mass formation. And I am not sure that the politician's mass formation is not more terrifying than the military formation." No doubt many other public men could tell of similar feelings. The Hon. William Paterson, one of the best known campaign speakers in Canada, told a friend with whom he was discussing his political career, that despite his lengthy experience in addressing public gatherings, if at any meeting just before he arose, somebody had opened a door behind him he would have bolted through the portal.

writes Mrs. W. Walker, Thompsons, Ontario. "I have used your medicine and I feel better than I have for years. I feel like a new man."

Where Canada Leads

Commissioner Quotes Dominion's Favorable Trade Record

Canada now leads all nations in favorable trade balance per head of population, according to a report issued by C. Price-Green, Commissioner of Natural Resources, for the Canadian National Railway.

The report says that Canada's exports amount to \$135 per capita, which is a third greater than the per capita exports of Great Britain, and nearly four times the per capita exports of the United States, and that a table recently compiled by the United States Bureau of Statistics shows that, taking a number of vital factors such as industrial production, employment, construction contracts, car loadings as a basis, the average per capita increase in economic production in Canada is five times as great as that in the United States.

Mr. Price-Green's report adds that, before 1900, agriculture was the leading industry of Canada, with manufacturing two thirds as important. Today agriculture maintains a premier position, but the difference is rapidly decreasing because manufacturing has increased 900 per cent. since 1901, while agriculture has increased only 400 per cent.

Where there's a will there are a lot of disappointed relations. The sun is 700 times as big as all its carthas and moons put together.

Canadian Steamships

New Canadian Government Ship Building Deal Is Rumored

The London Sunday News states that a large ship building contract for a new Canadian Government line of passenger and cargo steamers may shortly be placed in Liverpool.

The newspaper stated contracts had already been invited for construction of a fleet of ships to run between Montreal and Cape Town and India.

More Deadly Than Cannon

Small Spoonful Of Unnamed Toxin Would Kill Million Men Is Claim

Dr. Leonard Hill, who is a director of applied physiology, National Institute of Medical Research, Hampstead, said there was a toxin that could be employed to kill millions of men, when he was contrasting the power of the scientific laboratory with that of modern war machinery. "If men are as susceptible as guinea pigs to the toxin, which shall be nameless—and there is every reason to think they are—it would appear that one spoonful of this dry toxin would suffice to kill 1,000,000 men. The toxin acts if inhaled, or if it falls on the eye in a powder. If such a toxin were prepared and scattered from an aeroplane, what would be the use of the puny of war?"

Lady (who has just returned to the village after her honeymoon)—"Well, John, I suppose my elopement was a nine days' wonder in Grant-hampstead?" "John"—"Ay, that it were, Marm. Leastways it would a been if Sum Bore's dog hadn't gone mad the same day."

HAMILTON ONTARIO LIMITED

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

REQUEST OTTAWA TO ASSIST WITH RELIEF MEASURES

Winnipeg. — The government of Canada will be approached by a delegation from western Canada, seeking cessation of unemployment difficulties. It was decided at the closing session of a two-day party representation of cities, provinces and municipalities in the west. Among the delegation's requests will be formation of a scheme of unemployment insurance and decision by the Dominion Government to bear share of unemployment relief expenditure.

An inter-provincial and Dominion conference should be called at the earliest possible moment for consideration of some Dominion-wide scheme of unemployment insurance, the conference was represented. It was pointed out that a Dominion commission had approved the scheme, but that law officers of the Crown had opined that under the British North America Act the Dominion Government cannot inaugurate such a plan.

In the opinion of the meeting, the Dominion should bear one-third of unemployment relief costs, on the basis of agreements entered into in 1921 and 1922, and confirmed in 1924; provinces and municipalities, or cities would divide equally the other two-thirds. The Dominion administration has contended that their stand was based on the agreement of 1927, by which unemployment was labelled a provincial matter, but the conference held that the 1927 situation was not parallel to that now existing.

Every city from Lake Superior to the Pacific coast was represented and government delegates to the party attended from British Columbia, Saskatchewan and Manitoba. Unable to send a representative, due to the opening of the Alberta legislature, Premier J. E. Brown telegraphed to the conference that Alberta would support the meeting's decision. The Dominion Government was not represented, but Hon. Peter Herman, Minister of Labor, stated that he would bring the conference's requests before the entire cabinet.

Prime Minister W. L. Mackenzie King has stated that the Dominion Government would be prepared to consider the unemployment question, with a view to remedial measures, if the provinces and Canada join together in admitting they are unable to cope with the problem.

Delegates will return to their respective areas and ask the bodies they represent to agree that emissaries be sent to Ottawa. The delegates will then notify Mayor Ralph H. Webb, Winnipeg, of their intention, and he will set the date of the pilgrimage to the capital. Governments of the four prairie provinces, as well as of Ontario, will be requested to dispatch representatives as members of the delegation.

Wheat Pool Conference In London, England

Canadian Pool Representatives Meet Rt. Hon. J. H. Thomas, Lord Privy Seal

London, Eng.—Preliminary discussions in which the threats of the conference of Winnipeg, last year, were taken up, was heard recently between Rt. Hon. J. H. Thomas, Lord Privy Seal, and representatives of the Canadian Wheat Pool, on the question of regulation of Canadian grain exports to Britain and establishment of grain elevator in this country. A. J. McPhail, of Regina, pool president; W. A. McLeod, of Winnipeg, publicity director, and D. R. McIntyre, eastern sales manager, attended.

The meeting was in Mr. Thomas' room in the Parliament Buildings.

Extradition Not Warranted

Los Angeles.—W. R. MacKay, arrested here recently at the request of Canadian authorities for alleged illegal transportation of machine guns across the Canada-United States border, has been released by the United States commissioner's office. The commissioner ruled that Canadian authorities had not established sufficient cause for extradition of MacKay. He was sought at Vancouver.

Prince Studying South Africa Cape Town, South Africa.—Notwithstanding the fact that during his stay in Cape Town, the Prince of Wales is spending the nearest thing to complete holiday that he has enjoyed in years, he is devoting considerable time to increasing his knowledge of South Africa, her main interest and problems.

W. N. U. 1233

Great Future For Canada

Sir Esme Howard Returns to Dominion's Enviable Position Ottawa.—A suggestion whereby Canadian trade may be enlarged with the West Indies, a tribute to Hon. Vincent Massey, Canadian minister at Washington, and an expression of confidence in the future of this country were the features of an address delivered before the Canadian Club here by Sir Esme Howard, British ambassador at the United States.

With regard to the Canadian minister at Washington, the British ambassador said that from the day Mr. Massey was appointed to this post there had never been a shadow of any sort between them.

"We have discussed matters of common interest and matters of all kinds so freely that we have become friends and almost as brothers. But I should like to say this, that the establishment of the Canadian legation at Washington, so far from creating difficulties for the conduct of the affairs of our British Commonwealth, as some persons supposed, has on the contrary been a real help and assistance in the conduct of those affairs in the United States."

Expanding his theme on Anglo-American relations, Sir Esme pointed out to Canada's enviable position in having on its frontiers no hostile neighbor.

"Some think that the north geographical situation of Canada is a drawback," he said. "I don't feel so sure about that because it ensures you for ever from the danger of the problem of mixed races, which is a most serious one in southern countries; and it ensures you also from the relaxation of mind and muscle which often is the result of too constant contact with the sun god. You are endowed with thousands and thousands of square miles of fertile plains, with millions of horsepower of electricity waiting to be harnessed, with lumber and wood pulp almost incalculable, and lastly with a wealth of mineral deposits which have yet only just been scratched. You have all this and you have also the unspeakable blessing of political security without fear from attack from without."

"Who are your neighbors? On one side the North Pole, whose bears are not likely to pose a danger to this estate; and on the other side a great and friendly country, with whom you have had for over a century an arrangement by which armaments were laid aside and the frontier line was left almost as free from defenses as those between one state and another of the United States."

Authorities Firm On Mennonite Question

Canada Will Not Permit Entry During Winter Months

Ottawa, Ont.—The attitude of the Canadian authorities with regard to the admission into Canada of the 6,000 distressed Mennonites in Germany is unaltered, and no permission will be given to bring them to this country during the winter months. This was stated by officers of the immigration department here. In the spring the department will give consideration to the case of these Mennonites, but no special privileges will be extended to them. Any action taken will be in conformity with the immigration laws and will be governed by the agricultural requirements of Canada then.

Motorist Was Rewarded

Ottawa, Ont.—Wilfrid Lebel, young Ottawa motorist, brought a party of skiers home from the Gatineau Hills when their car broke down on Sunday. He was surprised when members of the party asked to be dropped off at Government House. He went home and forgot about it until he received a letter of thanks from Her Excellency Viscountess Willingdon, accompanied by a handsome bouquet.

Pictures Are Proof

Toronto.—Helge Borup, a young Dane, who in three years became a successful farmer in Northern Ontario, has left to spend a holiday in the land of his birth, and in his baggage will be 5,000 feet of film which he will show in many parts of Denmark as pictorial proof that splendid opportunities exist for those who are not afraid to play the part of pioneer.

To Speak Over Radio

London, England.—Lady Astor, Conservative member of the House of Commons, will broadcast over radio to Canada and the United States within about a week. Her address will be designed primarily for women and will urge them to continue their efforts for world peace.

Copy Was Clever Forgery

Expert Investigated So-Called Draft Of U.S. Declaration Of Independence

Toronto.—Paint pencil marks discovered by a hand-writing expert left no doubt that the so-called draft copy of the United States Declaration of Independence, now in Toronto, was a hoax, says the Mail and Empire in a news story.

"One of the cleverest forgeries ever committed," said the expert when he had completed his investigation. A powerful magnifying glass brought into evidence lead pencil markings about the strokes of the writing, says the paper. These markings indicated, the expert said, that the signature had been carefully drawn then inked in.

MAY EFFECT BIG REDUCTION IN NAVAL STRENGTH

London, Eng.—Rt. Hon. A. V. Alexander, first lord of the admiralty, told the House of Commons that Great Britain's cruiser strength in naval estimates for the next ten years would depend on the results of the Five Power Naval conference.

Asked what increase or decrease for the next two five-year periods of the naval estimates would result from fixing the number of cruisers at fifty, he replied: "There are at present 54 British cruisers built, and four others in an advanced stage of construction."

"The effect on the British estimates of fixing the total at fifty cruisers depends on the size of the cruisers laid down and the type of the cruisers built to replace those that become obsolete."

"The decision on these questions depends on the conclusions of the naval conference." According to figures that Mr. Alexander gave to another questioner, the saving in the British naval estimates for the next six years would aggregate more than £52,000,000, if replacements of battleships as provided in article 20 of the Washington Treaty were deferred until 1936.

Mr. Alexander also told a questioner that decision as to proceeding with the three submarines remaining on the British 1929 naval program would be taken after the London conference had been concluded. The program originally provided for six submarines, but three of these were later cut out.

The recent cancellation of two British cruisers was of no material significance, Mr. Alexander told a questioner who asked the reason for the abandonment and the effect of the decision on the unemployment situation.

"The suspension of work on these ships," he said, "was decided upon by the Government on July 1st, for reasons of high policy fully set out in a statement the prime minister made in the House of Commons, Jan. 14. As very little work had been done on these ships on that date the recent decision to regard them as cancelled is of no material significance and was taken in connection with the framing of the naval estimates."

The first lord of the admiralty said it had not been necessary to reduce dockyard employment in consequence of stopping work on these and other ships.

"JAMAICA SUGAR"

They say that little girls are made of sugar and spice and all that's nice. This can truly be said of this little picaninny because she belongs to the West Indies, where spice and sugar grow. Perhaps she is a little shy because the lady who took such a fancy to her was a very distinguished visitor to her home island. Both, Her Excellency Lady Willingdon, and the Viscountess Willingdon, Governor-General of Canada, were highly delighted with their cruise through the Spanish Main. This photograph was taken on board the Canadian National Steamship "Lady Somers."—Canadian National Railways Photograph.

WILL LEAD PROGRESSIVE GROUP

H. C. Nixon, who has been selected to lead the Progressive group in the Ontario House during the coming session.

Manitoba Beekeepers Meet In Winnipeg

Delegates Discuss Betterment Of Conditions Which Are Already Excellent

Winnipeg.—Manitoba bee keepers in the 23rd annual convention at the Royal Alexandra Hotel, discussed ways and means of bettering the already excellent conditions under which this province holds a three-year record in the Dominion for first grade granulated and extracted honey. The report of the secretary, L. T. Floyd, gives Manitoba's entire crop estimate at 6,890,329 pounds of honey, with an average of 144 pounds per colony. There are 2,856 apiaries and the spring and fall count of colonies rates at 47,595 and 42,726 respectively. W. D. Wright, of Souris, Manitoba, representing the district west and south of Brandon, from whence the finest grades come, was congratulated upon winning Dominion sweepstakes this year with practically all the prizes in the classes mentioned during the last three years.

Roy Mullen, of Myrtle, was another outstanding beekeeper, having obtained 26,000 pounds from 100 colonies of bees.

Farm Home Destroyed

Father and Daughter Die From Burns Received In Fire

Kerrobart, Sask.—Burned terribly from neck to knees on both the front and the back of his body, through his heroic efforts to save his children, Lester Matters, Tramping Lake farmer, died in the Kerrobart hospital. He had been there for 24 hours, in intense pain.

Injuries were received when fire practically destroyed his house following an early morning kerosene explosion, nine miles west of Tramping Lake. He and three children sustained burns in the explosion, one little girl, Nellie, aged 14 years, having been killed by her injuries shortly after admittance to the hospital.

Suggests Help For Byrd

New York, N.Y.—Dr. Howard T. Barnes, of McGill University, has suggested that chemicals might be used to hasten the break-up of the South Polar ice pack if Admiral Byrd desired it. The work would be done, Prof. Barnes said, by forcing one vital break in the pack at the key point and the manoeuvring an actual shifting of the ice mass.

Canadian Scouts Contingent

Governor-General Willingdon Thanks All Those Who Helped To Make Jamboree a Success

Ottawa, Ont.—Success of the Canadian Scouts' contingent who took part in last year's jamboree, in England, was due in large measure to the generous aid of Canadians, said the Governor-General.

"To the generous subscribers in all parts of Canada to the special fund I personally raised for this purpose," said Viscount Willingdon, "I wish to express very grateful thanks and also to the various individuals who subscribed sums for individual boys, which largely increased the numbers of our contingent. I wish to thank, too, all members of the executive of the association here at headquarters, for their loyal, devoted work, very particularly the members of the Jamboree committee, who, under the chairmanship of Colonel Snow, made all the arrangements for this undertaking."

UNEMPLOYMENT ASSOCIATED WITH POOL POLICY

Winnipeg, Man.—The Canadian wheat pool's policy of holding wheat for higher prices has helped to create the serious unemployment situation as it exists in Canada, Mayor Ralph H. Webb, of Winnipeg, stated recently. His comment made at the western conference on unemployment, from the presiding chair, drew pronounced opposition from several delegates.

"I have not attacked the wheat pool in any shape or form," continued Mr. Webb in answer to criticism of his stand. "I am commenting only on the pool's present policy which the pool has a perfect right to practice. I hope it proves to be right."

"Hundreds of thousands of men have been laid off by the railways as a result of the pool's holding policy," estimated the Winnipeg mayor in his first resume of the unemployment situation. He mentioned that the facts that the 1928 crop was not yet paid for, and payments on the 1929 crop were yet to come, so additional lines tending to cause unemployment.

Canada should turn an eye to the United States, where "holding policies" have been directed in vain against Great Britain, Mr. Webb believed. "The United States efforts of the United States to hold up Britain on beef, oil, cotton, rubber and tobacco, and resultant British moves to develop other resources."

Australia and the Argentine have quadrupled their wheat yields within one and seven years respectively, the mayor held; Manchuria was producing 24,000,000 bushels where no wheat was grown six years ago; India had doubled her wheat yield in six years. Italy and France, the former never a wheat-producing country, "are now meeting almost all domestic requirements," he said, "and Germany—ever an importer, was now exporting wheat to Britain."

Subsidized grain-growing, with 4,000,000 or 5,000,000 acres, put into new production in Britain, would be the result of making the British, Mr. Webb forecast.

"We may find that the government has had a lot to do with the present policy," stated Mr. Webb, referring to the wheat pool's stand, "and that may not bear very close investigation."

Mayor John W. Hair, of Saskatoon, immediately dissociated himself from the "attack on the wheat pool made by Mayor Webb." He mentioned that Saskatoon is proud of being the centre of Canada's greatest pool province and mentioned that he considered the wheat pool had done far more to create employment than to cause unemployment.

Strong protest against Mayor Webb's statements came from Ben Lewis, of Stonewall, Man., a director of the United Farmers of Manitoba. "These co-operative organizations came into existence through necessity," stated Mr. Lewis. "The farmers refused to produce grain at a loss and insisted on a living wage. It is because agriculture is in such a low state that the whole country is suffering. Politicians come out into the west, talking of prosperity, while the very causes of the prosperity—the farmers—are almost poverty stricken."

Almost unanimously, at the opening of a western "jobless party" called in Winnipeg, they stressed the gravity of present conditions, forecast early aggravation of the situation and opined that the Dominion Government should aid in unemployment relief.

MOVE MADE TO CHECK UP ON STOCK BROKERS

Winnipeg.—Across the prairie has sounded repercussions of the arrest of 10 Toronto brokers on charges of conspiracy to defraud. In Manitoba, Alberta and British Columbia, developments occurred in the move to check up on brokerage house activities throughout the Dominion.

Manitoba took the most drastic action of the day in the West, attacking bank accounts of unnamed brokers and adding to the list of companies under survey by province-appointed auditors. Early in January, the Manitoba Government initiated an audit in the Winnipeg office of Stobie Forling-Matthews, Limited, and Solloway, Mills and Company, Ltd.

Voluntary action was taken, it was pointed out, because of the uncertainty which at present exists in the stock brokerage trade, and, because at present there was no means of ascertaining the exact status of affairs.

Attorney-General W. J. Major, K.C., refused to name the firms whose bank accounts had been tied up at the order of the municipal and public utility commission, and would not state into what new offices auditors had been ordered. As yet, no action has been brought against any Winnipeg firm or branch by provincial authorities.

At Vancouver, following a special meeting of members of the Stock Exchange, an order was issued to Solloway-Mills and Company, Ltd., Stobie, Forling-Matthews, Ltd., to cease from trading on the local market.

Traders for Solloway-Mills were withdrawn by the company from the floor of the Calgary Stock Exchange. It was denied that any suspension had been ordered, and affirmed that the move had been voluntary.

Attorney-generals of the western provinces are unanimous in their willingness to co-operate toward joint action by various provinces of the Dominion looking to uniformity in legislation. British Columbia, Alberta and Manitoba, have agreed to attend a national conference when asked if it is called. Saskatchewan, though in accord with the idea, will not be able to attend a party, owing to the coming session of the legislature.

At Calgary, Isaac W. Solloway and Harvey Mills, heads of the Solloway-Mills' organization, in police court appear at preliminary hearings on five charges of fraud and conspiracy.

World Grain Show

Manitoba Agricultural Societies Urged To Take An Interest In Big Event

Winnipeg, Man.—An appeal to all societies to arrange at once for representation at the World Grain Show, at Regina, in 1932, was made by J. H. Evans, minister of agriculture for Manitoba, at an address before the agricultural societies convention recently.

Every society in Manitoba should be represented at the show, said Mr. Evans. He rejoiced at the interest manifested by young seed growers in the production of better seed.

Endurance Test A Success

British Dirigible In Air For Fifty-Hour

Cardington, Eng.—The dirigible R-100 returned to her home port after a successful endurance flight lasting 53 hours.

The giant airship during that time flew a zigzag course over the southern part of England, crossed the channel to the Scilly Islands, flew back over Plymouth, the Isle of Wight, Dover, the Southeastern coast ports and once again over London.

She started in misty weather and arrived home in a mist.

B.C. Honors Pioneer Women

Victoria.—The legislature of British Columbia, in its annual session, paid tribute to the pioneer women of the province, who had helped lay the foundations of Canada on the Pacific. A dozen pioneer women occupied seats on the floor of the House, and received tributes on behalf of those they represented, the government and opposition.

Another Royal Wedding

Vienna.—Dispatches from Bucharest say that the wedding of Princess Maria, daughter of Dowager Queen Marie, to Count Alexander, of Flessa, has been fixed for the second half of February.

Ratepayers Hear Review of Year

Town Council Committees and School Trustees Give Interesting Review of Activities

W. Haysom Suggests Playground Equipment and Instruction in Vocal Music

The annual meeting of the ratepayers and the school district held last Friday evening in the town hall was presided over by G. Pattinson, deputy mayor. W. J. Burns, retiring mayor, was unable to come in from the power plant at the lake.

Cr. Pattinson gave a review of the relief work carried out under his direction, explaining how economies had been effected and at the same time meeting all calls for relief.

Walter Nelson as chairman of public works reviewed the work of his department; J. Rushton reported on licenses and police; J. Moores on Light and Water. H. Snowden commented on P. M. Christopher's unfair comment on action taken by Coleman in dealing with relief cases this winter.

Questions were asked by ratepayers on various details of the year's work, which were answered in a satisfactory manner, and the council was complimented on its work during a trying period, and a vote of thanks was passed for their services.

The report of the school board was read by H. Snowden, and showed finances to be in good shape. It was adopted on motion.

Mr. Haysom suggested that the new board take into consideration the providing of playground equipment, and also the instruction of vocal music in the schools. His suggestions were concurred in by those present.

Dr. McLeod gave a report on the dental clinic instituted by the board, and told of the benefits which had accrued. The matter of its continuance will be left for the new board to deal with, and the meeting expressed its favorable opinion towards the continuation of this work throughout the year.

Principal Hoyle gave a report of general interest on the work of the schools, paying a tribute to the co-operation of the staff, and enlightening the meeting as to the status of the work, the number of pupils in attendance and other details.

At the conclusion a vote of thanks was passed on motion of W. Haysom and J. Moores to the school trustees for their year's work.

J. Clark, who has been in hospital suffering from pneumonia, is improving. He collapsed on the night of a junior hockey match recently while watching the boys playing against Bellevue, and has had a critical time. He took a prominent part in re-organizing the junior hockey team this season.

Personal and Local

Blairmore defeated High River at Blairmore on Monday night by the score of 3-0.

Will Lonsbury returned home recently from Shaughnessy, where he had been working for a few months.

George Snod has been appointed local carrier for the Calgary Alberta, a representative of the circulation department having been in Coleman and Blairmore on Saturday last.

Hon. Peter C. Larkin, high commissioner for Canada in London for eight years, passed away in that city at the age of 73 years. He was the head of the firm which made Salada tea famous.

Jimmy Taylor usually takes a sentimental turn about the time of Burns' Anniversary, and he confided to the editor that he is seriously thinking of attempting a literary effort on something in the line of Scotch.

The prize-winners at the L. O. L. whist drive on Wednesday night of last week were Mrs. H. M. Cook, Mrs. W. Milley, W. Lonsbury, Bob Anderson. A dance was held afterwards, Altmatt's orchestra furnishing the music. There was a good turnout and another social will be held shortly.

A very enjoyable evening was held at the whist drive and dance held in the K. of P. hall on Saturday, Feb. 1, 17 tables being in play. The prize winners were as follows: Mrs. C. Derbyshire, Mrs. H. Snowdon, E. Hill Sen, and R. Anderson. After lunch everyone enjoyed dancing to the splendid music by Mrs. Salt's three-piece orchestra.

Mr. W. Hayson, at the ratepayers meeting last Friday evening, suggested two innovations which might well be considered by the school board

and ratepayers. He advocated the purchasing of playground equipment for the schools, and the teaching of vocal singing by a qualified teacher. Doubtless his suggestions will meet with the support of the majority of the parents, and it would be a commendable move on the part of the board.

Here and There

(488)

Nine competitions, including men's and women's handicap events, men's and women's team matches and mixed foursomes will feature the programme of the second annual Empress midwinter golf tournament to be played over the Colwood course at Victoria, February 17-22. The E. W. Beatty trophy is the chief award for the men's and women's handicap competitions.

Miss Connie Wilson, champion fancy skater of North America and Great Britain, will take a star part in the Ice Fancet of the Frontenac Winter Sports Club to be staged at Quebec February 12-13. She will be supported by the best talent of Quebec and a group of stars from Toronto, including the championship four of the Toronto Skating Club. Ottawa will be represented by the Minto Skating Club and 24 lady skaters from Toronto will perform in the "Danse Moderne" number.

The greatest fireworks display of the year, the "Fete de Nuit" exhibition at Quebec, recently, one of the features of the Winter Sports season which lasts until March, consisted of a sham attack by hundreds of snowshoers bearing torches, upon the garrison of the citadel. The heavy explosions of Roman candles, bombs and rockets began the attack, which culminated when the besiegers were driven back by the garrison, who sent volley after volley of blanks crashing into the night. When the bugles sounded the "Cease Fire", the show was generally voted one of the finest in years.

The outstanding contributions that the Canadian Pacific Railway has made to the life of the Dominion in an industrial and cultural way were emphasized by E. W. Beatty, chairman and president of the road, at a recent address before the Canadian Industrial Traffic League at Montreal recently. His company, he said, had in the past five years, spent over \$245,000,000 on capital account alone and during the same period had built over 1,000 miles of branch lines. 1929 with its decrease in earnings, he regarded as an exceptional year not likely to be repeated in subsequent years.

A considerable increase in grain shipments from Saint John has already been established since the new year, over the entire month of December. 1929, General Superintendent J. Woodman, of the Canadian Pacific Railway, states. Bushels of grain for December export from Saint John totaled 508,357; from January 1 to January 17, total was 651,438.

The second annual Sea Music Festival of the Pacific Coast passed into history January 19, when once again capacity houses greeted the final offerings. Outstanding among the features were the two ballad operas, "The Order of Good Cheer", incorporating French-Canadian sea chanteys of the 16th century, and "Bound for the Rio Grande", a rollicking sea-song a lalet by Captain Frederick Wallace. Each of these was repeated by request on three successive days.

The 10th annual winter carnival with the first official Western Canada Ski tournament will be held at Revelstoke, February 4-6. World records have been made on the ski trail at Revelstoke, and leading ski tamperers of the continent will attend the carnival.

The Most Forceful Aid to Increased Business is Publicity

Much money is wasted on various forms of publicity, which are non-effective from a retail viewpoint.

The one medium which is read by more people than any other form of advertising is that which appears in your local paper. It goes into the Home. The people who read the local paper are your customers, or should be, and the best way to secure and hold their business is by advertising backed up by good service and right prices.

And be sure and tell 'em your store news by advertising--The people look for it, and

The Journal

is your best medium for telling 'em.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Copyright 1929

CHAPTER I

Doctor Edward Howe, Wickfield's beloved and venerable physician, stopped his car before the old Davis house, while a girl who was vigorous, polishing the sidewalk by the wide front door turned from her perch on a low step ladder and waved a greeting. The doctor glanced at his watch, and deciding that there was time for a moment's relaxation, got slowly out, threw a smile to Grandma Davis who was at the window, and sat down on the porch below the girl.

"It's a big house makes you a sight of work, Charmian Davis," Charmian turned, dropped her polishing cloth and took a seat on the step ladder.

"I suppose it does; but somehow I don't mind—it's such a beautiful house. I like to remember that my father and grandfather were born here, where I was born myself. It's old house seems—well—perhaps you'll laugh at me, Doctor, but the house seems just as much a part of me as do my ancestors."

But the doctor didn't laugh. He looked up at the shiny brass knocker on the door, put there three generations before by Luther Davis—at the small-paned windows of long ago. Then his glance strayed from the century-old elm at corner of the house to the mammoth syringa bush (the pride of the village as well as of Grandma Davis), at the other, and he understood and sympathized with the girl's loyalty to the home of her forefathers.

Charmian was right. It was a beautiful old house. It stood a fair rod from the street, though it was

built in the days when most Wickfield dwellings were set flush with the sidewalk. Charmian's great-grandfather had explained (when curious neighbors commented on this fact), that he was unwilling to sacrifice the young elm tree but most of his questioners suspected that the underlying reason for this unusual preference was because great-grandfather Davis "hated dust." This, at least, was the story that had come down to Charmian, who declared that if her great-grandfather could have foretold the dust of the present day with automobiles passing at forty miles an hour, she would have set her mansion in what was then the cow pasture!

"But if she had," commented Grandma Davis wisely, "it wouldn't have been near so handy for the shop."

Charmian smiled. The shop, which was once the honored parlor of the old Davis house, was an innovation against which Grandma had bitterly rebelled when it was first suggested by Charmian's widowed mother. At that time Charmian was but a little maid of six, yet she remembered vividly the battle that took place before Grandma Davis capitulated to her daughter-in-law's irrefutable argument that it was more honorable for a Davis to run a shop in the best room than to go into debt.

She remembered also the day when the fine imported carpet was removed, and the contents of the highway taken "up attic" in order to make room for the rolls of calico—the spoils of silk and cotton—the pins and needles—bright worsteds and other fascinating odds and ends which were to be paid for "by instalment" whatever that was.

Wickfield was in sore need of a dry goods store, for Henry Oldham, who had run the general store for forty years, rarely replenished his stock, and one had to drive clear to Eastboro in order to match a skein of yarn.

Hence the neighbors, after a moment's shocked surprise, welcomed the thought of buying their fancy goods of Charmian's mother; and as Grandma grew older, the little shop

against which she had fought so valiantly, became her greatest source of entertainment.

Charmian was fifteen when her mother died, but she managed to finish high school, to go to the State Normal at Eastboro, and keep house for Grandma, while the old lady sat contentedly in the front window and waited on occasional customers, unless, as was usually the case, the waiters on themselves. Indeed the Davis house would hardly have seemed natural without Grandma's face peering from behind that twenty-four-paned window. Once, stepping in on an errand, Ezra Bascomb had offered to put a whole pane of glass in the lower sash, so she could see the passing better.

"I could do it easy enough some holiday," he urged; but the old lady shook her head.

"It's real kind of you, Ezra," she said gratefully, "but my husband's grandfather, Luther Davy, built this house, and I've never felt called to want it changed. Seems as if one pane of glass wouldn't exactly suit it, though I've no doubt Charmian would find it easier to clean. Charmian's terribly particular about windows. She keeps a soiled window can just spun a nice, sunny morning; and I dunno but what she's right. Once when she was a little girl she gave me a wiper for my spectacles. It said on it: 'The world will never look quite right unless you keep your glasses bright.' To the point the same thing applies to windows. No, Ezra, I'm just as obliged to you, but I guess we'll stick to Grandma Davis's old windows, Charmian thinks the world of them."

"Well," responded Ezra, good-naturedly, "there's no accounting for taste. Now the first thing, Emmy wanted when we was married, was for me to yank those small-paned windows out of the old house, and put in new ones. She's kept at me ever since, and at last I've done it; and I will say, Grandma, that they look handsome. But that city fellow, who's living down at Irving Plummer's, acted like I'd broke all ten commandments when I suggested changing the windows along with the other improvements he's put in. No, there's no accounting for taste. He bought the place and furnishings as they stood, and he's give Hetty Plummer's golden oak extension table, the one she sent clear to Portland for, to his hired man, and he's using an mahogany drop-leaf that Grandma Plummer kept her preserves on in the cellar!"

"Do tell!"

"Yes, ma'am," replied Ezra, moving toward the door, "that's Gospel truth, or may I be struck dead where I stand."

He felt in his pocket for his cap, and drew out a scrap of bright blue silk.

"Gorry! I clean forgot what I was here for. Emmy wants a spool o' silk to match this sash, even when she was her new waist to wear to the strawberry festival."

"Let's see," said Grandma eagerly, stretching out a hand for the sample.

"That's real pretty, Emmy always did like best in blue, even when she was a baby. You open the top drawer, Ezra, and find a spool to match."

"Emmy said," hesitated Ezra, like a well-trained husband, "that I was to let Charmian pick it out. She says I ain't got an eye for color."

"And I suppose she won't trust me either. I dono as I blame her. My eyes are getting old along with the rest of me. Charmian's up attic. You whistle at the back stairs and she'll come down. There's her coming now. 'Dear,' she called, 'you come right here. Emmy Bascomb wants you here pick out a spool o' silk to match her waist. Seems to me I remember the blues are getting sort of low.'"

"Yes, the little shop had been Grandma's unfailing source of entertainment for many years. Even when with the invasion of automobiles, Eastboro became more accessible, the neighbors did what shopping they could at Grandma's, not only to help her out, but to make an excuse for running in to chat during the long days when Charmian was away at school. If, nineteen years before, Wickfield had been shocked at the thought of a shop in Lawyer Davis's best room, it had long since become as accustomed to it as had Grandma herself; though at times the old lady wondered, with an inner chuckle, what her husband's father was thinking as he viewed the change from his mansion in the Eternal City.

For Roger Davis had been a lawyer—a man of education. His office, a small, one-story building, stood across the drive that led to the big barn. He had been what in those days was called a scholar and a gentleman, but, although he sent his son to college, "Grandpa Davis" after a year of reading law in his father's office, had "gone back to the land"; and being more of a dreamer than a worker, he left the old place rather worse off than when he felt heir to it. For he had found it pleasanter to

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting at any minute to drop dead. This condition can be prevented, likewise relieved. Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkgs. of Carter's Little Liver Pills.

well as easier, to let his horses rest when they should have been dragging the plow, while he feasted his beauty-loving eyes on the hills that surrounded Wickfield on every side, and composed "poetry."

Grandma was very proud of Grandma's poems. One of them was printed in the Eastboro "Telegraph," and the minister read it from the pulpit. That was a proud day for Grandma Davis. She still kept a clipping of the poem between the pages of her Bible, and read it every night after she said her prayers. To her loyal heart it was a legacy more beautiful than gold or precious stones.

And now, though she and Charmian were left alone in the big house, it never occurred to them to leave it. To Charmian it was "home." To the girl it was not only home, but something that gave her a sense of satisfying pride. For was it not something to be proud of, to live in a house built by ones great-grandfather? This also Charmian's opinion on the subject. Things she lacked—things that were, to many a girl of her age, the breath of life.

(To Be Continued.)

Has Long Railway Experience

H. H. Melanson Appointed Assistant To Robert L. Burnap, Of Canadian National System

H. H. Melanson has been appointed assistant traffic vice-president, Canadian National Railways, with headquarters at Montreal. Announcement of the appointment was made in a circular issued by R. L. Burnap, vice-president in charge of Traffic, and approved by Sir Henry Thornton, the appointment is effective immediately and the official announcement states that Mr. Melanson will have charge of such matters, and will perform such duties, as may be assigned to him from time to time by the vice-president.

H. H. Melanson brings to his new executive position long railway experience. Descended from Acadians who settled at Port Royal in 1660, he entered the service of the International Railways at Montreal, N.E., in 1889, being then described as "Assistant to the Junior Clerk" in the mechanical department. Three years later he joined the passenger department of the Intercolonial Railway, and in 1899, was promoted to the position of chief clerk of that department. After becoming general baggage agent, Mr. Melanson was made assistant general passenger agent of the Intercolonial Railway, in 1909, and he became general passenger agent in 1913. In 1917, Mr. Melanson was appointed passenger traffic manager of the Canadian Government Railways, and he was made passenger traffic manager of the Canadian National Railways, in 1918. The position he held until his appointment, in 1923, as general passenger traffic manager of the Canadian National Railways.

Mr. Melanson is one of two Canadians to have held the office of president of the American Association of Passenger Officers, which met last year at Jasper Park Lodge during the course of a tour through Western Canada, the other Canadian to have had this honor being Mr. George T. Bell, formerly executive assistant to the traffic vice-president, Canadian National Railways.

Whaling Up-To-Date

Airplanes Being Used As Scouts By Norwegian Fleet

A Norwegian whaling fleet now at work off the ice banks of the Antarctic is accompanied by two aeroplanes which are being used to scout for schools of whales. It has been found that in certain years the whales are much more difficult to find than in others; in fact, they are seen practically to disappear, and it is hoped that the aeroplanes with its greater mobility and wide range of vision will be able to help in solving the problem. The machines can be equipped with three sets of landing gear: wheels for landing on the deck of the "mother" vessel, pontoons for the water, and skis for the ice. A wireless "there she blows" will summon the fleet when the aeroplanes sight their quarry.

IF THERE IS A BABY IN YOUR HOME

There Also Should Be A Box Of Baby's Own Tablets

To keep her little ones well is the constant aim of every mother and to help her in this task she should always keep a box of Baby's Own Tablets in the home. These Tablets have saved many little lives when illness came on suddenly.

The majority of troubles which afflict little ones are those which arise from a disordered condition of the stomach and bowels. It is in quickly correcting these disorders that Baby's Own Tablets show their value. They banish constipation and indigestion; correct colic and diarrhoea; break up colds and simple fevers and allay teething pains.

Concerning the Tablets Mrs. E. Roberts, Chas. O. O. Que, writes: "I always keep Baby's Own Tablets in the house as I know of nothing to equal them for little ones."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Seven Hundred Mile Line

Length Of Surveyed Boundary Between Alberta and Saskatchewan

The boundary between Alberta and Saskatchewan is the Fourth Meridian of the Dominion Lands survey system, which coincides approximately with the 110th meridian of west longitude and under instructions from the Survey General Department of the Interior, has been surveyed from the International Boundary north to Lake Athabasca, a distance in a straight line of nearly seven hundred miles, constituting one of the longest surveyed straight lines in the world.

Miller's Worm Powders will eradicate the worm evil that bears so much of the blame for the ailments which cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

Cost Of Translations

French and German Cheapest, and Finnish Is Dearest

Language experts should find something to interest them in the tariff of a translation firm I have just been looking over, writes "Looker On" in the London "Daily Chronicle." English and German, it seems, are the cheapest languages to translate. Italian and Spanish are a little dearer, and Dutch and the Scandinavian languages come next on the list of charges. Greek translations cost considerably more than Russian—they rank in cost with Rumanian, Hungarian, Serbian and Czech. Lithuanian comes next, while Finnish, "dearest" language of all, costs about eight times as much as French.

Quarry Should Be Marked

Stone For England's Cenotaph Taken From Isle Of Portland

The stone from which England's famous cenotaph is hewn was quarried in the Isle of Portland, near Poole in Dorsetshire, south of Weymouth, projecting into the English Channel, terminating in the Bill of Portland. The quarry is situated at the lower end of a long, quaint, straggling road, named Wakenham Street. The little quarry is now worked out, its lifting gear dismantled and taken elsewhere. In case of time its situation may be easily forgotten unless marked in some way. Meantime, red poppies in their season bloom luxuriously among the debris.

Calgary's Building Permits

Calgary's building permits for the year numbered 1,883 and had a recorded value of \$11,417,194, compared with 484 in 1928, with a value of \$3,302,142 in 1928.

The weekly catch of herrings of Yarmouth, England, exceeds 300,000,000.

Minard's—The Great White Lintiment

Little Helps For This Week

"The Lord our God will we serve, and His voice will we obey."—Joshua, xxiv. 24.

So near is God to our dust. So near is His voice to our dust. When duty whispers low "Thou must," The youth replies, "I can."—Ralph Waldo Emerson.

When in the crises of your duty the way of peace and right summons you with its sweet compulsion, it is the call of the Eternal Right making itself heard in your waking soul. It is the summons of God through the voice of the world. Next for every life the sources of religious trust; not in the evidences of the stars, or sea, or ancient man, but here amid the inevitable experiences of our daily mistakes, and of our sincere repentances. The life of God and the life of man are all interwoven in the web of human experiences.—Francis G. Peabody.

A Remarkable Exhibit

Edmonton Has Fine Display Of Northern Grains and Grasses

Grown 300 miles north of Edmonton, as the crow flies, at the Dominion Experimental Farm, at Fort Vermilion, Alberta, on the Peace River, a most remarkable display of grains and grasses of last season's crop are on display at the Edmonton Chamber of Commerce.

Exhibits include thirteen varieties of wheat grown in experimental plots; eight of oats, five of barley, two of flax and two of rye. The wheat includes such well known varieties as Marquis, Red Fife, Marquis and the data include Banner, Leader, Victory and two varieties of hull-less—Laurel and Liberty.

Twelve of the 13 varieties of wheat sown April 30, the other, Marquis, May 5. The 13 varieties were sown on August 15; significant that Marquis, sown eight days later than all the other varieties ripened as rapidly as two others sown eight days earlier—Kitchener and Red Fife.

All samples are of excellent quality, with strong root growth, sturdy stands and plump, well-filled heads, with heads ripened perfectly.

Exhausted From Asthma. Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one true remedy which will usually stop this drain. Dr. J. D. Kellogg's Asthma Remedy is a wonderful check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

Measured The Earth

The earth is not round after all. It is flattened at the poles, and has quite a pronounced heaviness about the middle. A. H. Miller, a Canadian scientist attached to the Dominion Observatory, in Ottawa, has completed measurements this year which show the diameter through the poles is 26 miles less than through the equator.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I get nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. It has made me stronger and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."—Mrs. J. Math, R. R. No. 5, Berlin St. East, Hamilton, Ontario, Canada.

Needless Pain!

Don't be a martyr to unnecessary pain.

Lots of suffering is, indeed, quite needless. Headaches, for example. They come without warning, but one can always be prepared. Aspirin tablets bring prompt relief. Keep a bottle of them at the office. Carry the small tin in your pocket. Then you won't have to hunt a drugstore, or wait till you get home.

And do not think that Aspirin is only good for headaches, sore throats, colds. Read the proven directions for relieving neuralgia, neuritis, rheumatic and other aches and pains. Remembering, of course, that the quick comfort from these tablets is not a cure for any continued pain, see a doctor.

Purchase genuine Aspirin. Protect yourself by looking for that name. Always the same. Always safe. Never hurts the heart.
